The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 40 and 45 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 of U.S. Patent No. 6,716,953. Although the conflicting claims are not identical, they are not patentably distinct from each other because the composition of matter of the present amended claims overlaps in scope with the reaction product of the patented claims.

Claims 47-81 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 6-39 of copending Application No. 10/772,907. Although the conflicting claims are not identical, they are not patentably distinct from each other because the curable composition of matter comprising the structure of the amended claims overlaps in scope with the copending claims directed to a curable composition comprising the reaction product which would have the same structure .

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
